

FACUL-TEA TIME

Meet your
professors
in an informal
setting

Bring Your
Own
Mug/Cup
(we'll provide some as well)

Coffee also available for those who need more caffeine

Monday | September 13

12:00 – 1:00 pm

Breezeway - just outside Bessey Hall Atrium

Majoring in Biology or Genetics?

Don't know your instructors?

This is a great way to get to know your professors in an informal setting.

Don't know what research they do..... *Ask*

Don't know what their hobbies are..... *Ask*

Don't know where they like to travel to..... *Ask*

This week's FACUL-TEA TIME host is: Professor [Haldre Rogers](#). She is a tropical forest community ecologist and conservation biologist, motivated by a desire to understand and effectively address environmental problems. Her research investigates the impact of biodiversity loss on ecosystem services, with a focus on mutualisms and food web dynamics in tropical forest ecosystems. Come meet and chat with Professor Rogers.
