

FACUL-TEA TIME

Meet your professors
in an informal
setting

Bring Your
Own
Mug/Cup
(we'll provide some as well)

Coffee also available for those who need more caffeine

Monday | September 27

12:00 – 1:00 pm

Breezeway just outside the Bessey Hall Atrium

Majoring in Biology or Genetics?

Don't know your instructors?

This is a great way to get to know your professors in an informal setting.

Don't know what research they do..... *Ask*

Don't know what their hobbies are..... *Ask*

Don't know where they like to travel to..... *Ask*

This week's FACUL-TEA TIME hosts are: Dr. Jelena Kraft (GDCB) and Dr. Tracy Heath (EEOB). Dr. Kraft's research focuses on understanding how specific classroom instructional practices and course materials shape student learning, engagement, and retention of science concepts. Dr. Heath's research seeks to understand how evolutionary forces have produced the patterns of biodiversity observed in the Tree of Life. Come meet Drs. Heath and Kraft!

Biology

Sponsored by the Biology and Genetics Undergraduate Programs

103 Bessey Hall, Ames, IA 50011
