Minutes of MDL Meeting

Date: August 28, 2020 (Friday)
Time: 4:00 pm – 5:00 pm
Number of participants: 25

Slides by Dr Liu:
➢ Importance of AI/DL.
➢ Relevant Grants
➢ Structure of seminar
➢ Current time suits most members
➢ Topics to be discussed

Discussion:
➢ Sanjeev Arora’s (Princeton University) works are relevant. We should take a look.
➢ What are the most relevant books pertaining to our seminar group.
➢ Invite ‘Zhengdao Wang’. He had an introductory course.
➢ Sharing portal or forum (Kind of like “Slack”).
➢ Graph Neural Network/ Geometric Deep Learning are new popular fields.
➢ Many people having issues with the first code itself. A tutorial for first code would help (Tensorflow e.t.c.).
➢ Presentation preliminary results is a good way to get things going.
