ADMINISTRATIVE EXPERIENCE

ISU ADVANCE Fellow www.provost.iastate.edu/isu-advance (August 2015 – July 2017)

As Faculty Fellow, I provide leadership for the institutionalized components of ISU ADVANCE. I manage the ADVANCE budget. I coordinate the college Equity Advisors and their work on the faculty search process. I support mentoring for post tenure faculty. Finally, I support the Department Enhancement Program that allows a department to systematically gather and analyze information about the culture of the department's work environment.

Liberal Arts and Science Equity Adviser (August, 2011 – July, 2014) (August, 2014 – June, 2015)

As the LAS Equity Advisor (EA), I served as the College's equity representative to the ISU ADVANCE Program and to the Strengthening the Professoriate at ISU (SPISU) Program. As the EA, I am the LAS administration's liaison to the college's Diversity Committee on how best to achieve a just environment where everyone feels welcomed, respected and safe. As EA, I also provide guidance to support the goal of recruiting and retaining a diverse faculty. As EA, I also provided information and am available for consultation on issues including recruiting, hiring, mentoring, professional development, promotion, leadership opportunities, and departmental climate as they relate to support for women and minority faculty. I was also the college's representative to the university's "peer mentoring" program. I provide workshops in collaboration with other EAs. The EA will make presentations to the LAS Cabinet as needed and met at least once each semester with the Dean.

ISU ADVANCE Program, Equity Adviser, Liberal Arts and Sciences (March, 2007 – August, 2011)

The ISU Advance Grant was a 5 year 3.3 million dollar institutional NSF grant whose focus is to increase the participation and advancement of women in academic science and engineering careers and make Iowa State University an optimal environment for all faculty. My role was to facilitate transformational change at the college level by working with the dean, the associate dean, the provost's office, the chairs, and the Advance Council in identifying barriers and implementing effective strategies for change.

ISU ADVANCE Program, Collaborative Transformation Research Investigator (August, 2008-2009, 2009-2010, 2010-2011)

As part of the ADVANCE grant, nine focal departments were identified for targeted change. The chair and faculty are interviewed individually and in groups. From the transcripts, a report was generated and given back to the department. The department then initiates and carries out an action plan to alter identified structures, policies, and practices. My role is to orchestrate the grant for two focal departments, namely civil, construction, and environmental engineering and chemical and biological engineering. I coordinated the interviewing process, conducted the chair interviews, worked closely with the Advance Professors, and generated the initial report. I also served on the research team that generated the integrated report across all focal departments.
